

## MORE ABOUT SUSSEX MONTESSORI SCHOOL

The distinguishing feature of young Montessori students is that they move forward in life with a deep love for learning and innate self-confidence in their ability to succeed.

The Montessori approach was created 100+ years ago to serve very poor children in Rome. Today, the vast majority of the 3,000 U.S. Montessori schools are private, with tuition costing \$12,000 or more per-year.

Sussex Montessori School will be unique – a free public school employing true Montessori in a rural setting, serving K-6 grades children who reflect the cultural and economic diversity of western Sussex County.

We invite you to join us on this exciting journey – through a permanently named area at Sussex Montessori School. Your tax-deductible gift can memorialize a loved one, family member, friend, or business.

# Naming Opportunities

SPECIAL WAYS TO  
Honor and Memorialize  
Family and Friends

# All young children have potential

...and deserve quality educational opportunities to make the most of their lives.

Bringing those opportunities to elementary-age students in rural western Sussex County is the objective of the new Sussex Montessori School.

You can support this mission, and help build our region's next generation of learners and leaders, by permanently naming an area at the school.

Naming opportunities listed here are available during the campaign and our project's construction period. Donations are fully tax-deductible and can be pledged over up to three years, with naming secured upon full payment.

For more information, please call our campaign office at 302-644-0107.

## Thank you!
